O dear friend, my galactic friend! You are a lotus radiating with the brilliance of million suns (embodiment of abundance - *lakshmi*). Wake up from the deep sleep (ignorance of your true nature), dear galactic friend!

**andhakAra gruhamunuNDi talupu tIsi rArA  
svEccha jIvira nIvu svEccha jIvira  
gagana IOka tAra rAjama**

Open the door and come out of your dark home (limited three-dimensional human existence). You are a free spirit. You are the star-emperor of the world of space (multi-dimensional universe).

**mrtyu bhayam uppu paTTi nITa kalapara  
amara jIvira nIvu amara jIvira  
mrtyunjaya Sankara**

Take hold of the fear of death, which is like salt, and dissolve it in the water (of immortality). You are an immortal being. You are *Siva*, the one who conquered death.

**prANayAma sAdhinchi vEnu vUdarA  
hrdaya vINa mITara hrdaya viNa mITara  
sarasvatI manmanOharA**

Master your vital energy (through the mastery of breath) and blow your (body) flute (infuse your body with aliveness). Play your heart *vINa* (express your beauty and creativity). You are the one who has enchanted the mind of *sarasvati* (master of arts).

**madana mOhana agarabatti veligincharA  
amara jyOTi chUpaRa amara jyOTi chUpaRa  
paripUrNANanda chandrama**

Light your enchanting incense (awaken your blissful self). Reveal your immortal light. You are a full moon (radiating peace), complete within yourself and blissful.

**SvEta khaDgam paTTi aSvam adhiShTincharA  
girrana tirugurA girrana girrana tirugurA  
mahA rudra dIpangkarA**

Hold white sword (of your truth) and ascend the white horse. Swirl around (allow your inner light to radiate all around). You are the bearer of the grand intense (ascension) flame. Awaken dear galactic friend!
